

Web Design Packages

Why choose IGRIN web design?

When designing your online presence it is often better to talk with a professional *in person*. At IGRIN we prefer this and offer a **free no obligation consultation** regarding the development of your website. If this is not possible a phone discussion and email is recommended before you register. Please [contact us](#) if you have any further enquiries after reading the below information.

Web Design Packages:

Below are the basic descriptions of our web design packages. These are guidelines only; we can be flexible in meeting your requirements.

■ Online Brochure Site: From \$499

- Custom design.
- 3 page website (additional pages \$50 per page).
- Web form (eg. for enquiries, booking, ordering etc).
- Search Engine Optimisation & Submission.

■ CMS (Content Management System) Site: From \$999

- Allows you to update your own website through your browser.
- Includes up to 10 pages.
- Unlimited pages can be added later through the CMS.
- Search Engine Optimisation & Submission.

■ E-commerce (Shopping Cart) Site: From \$999.

- Unlimited product uploads and categories.
- Allows you to upload & edit products through your browser.
- First 20 products uploaded for you.
- Up to 5 additional static pages (e.g About Us, Terms & Conditions).
- Search Engine Optimisation & Submission.
- Contact/enquiry form.

■ Website Updates: \$60/hr

If your site is hosted with us we can provide free minor text updates. For larger updates e.g. changing photos, the minimum charge is \$30. If you would like a website that you can easily update yourself, please ask us about a Content Management System.

Other information:

You will need to register a domain name and also pay hosting to keep your website online.

To see a portfolio of some of iGRINs previous web design jobs, please visit www.igrin.co.nz/web_portfolio.html

All above prices include GST

\$100 deposit is required upon commencement; the remainder due on completion before the website goes live.

Web Design Form

Website features

Please describe in a few words what you wish to achieve with your website, and its basic features.

Website description

Please enter the description of your website or business in 30 words or less. This may be used for search engine optimisation and submission.

Check list:

Before we can commence work on your website we need to have your complete input – this ensures good understanding / direction from the start and prevents unnecessary delay. Successful web design also needs a clear concept.

Please supply via CD or email the following:

- ✓ All photos that you wish to have displayed on your website and incorporated into the design. If you need us to scan several photos, this may incur an extra fee.
- ✓ A word document (or email/powerpoint/publisher file) with your text. Each page should have a heading that represents each page of your website. You can insert photos or placeholders (photo names) where you want to specify relevant photo thumbnails. If you need us to type your text, this may incur an extra fee.
- ✓ Examples of any logo, brochures, business cards, letterheads or other advertising material you have previously done. This is important so we can get an idea of any colour schemes and design style that you have already established. If you do not have these stored on a computer, please provide hard copies instead.
- ✓ A brief description of your website, and your expectations – perhaps you have already done this above on this form, or via email. You can also describe your target audience, or any features / benefits that set you apart from your competition. You may want to indicate links to websites that you like the look of.
- ✓ Please fill out the accompanying hosting form for your domain name and email addresses.

Please sign below to show that you understand the above information:
